

# Bürgerspitalwiese Primary School Vienna

Project Competition 2017

Recognition

“Terrace goes School”

Schenker

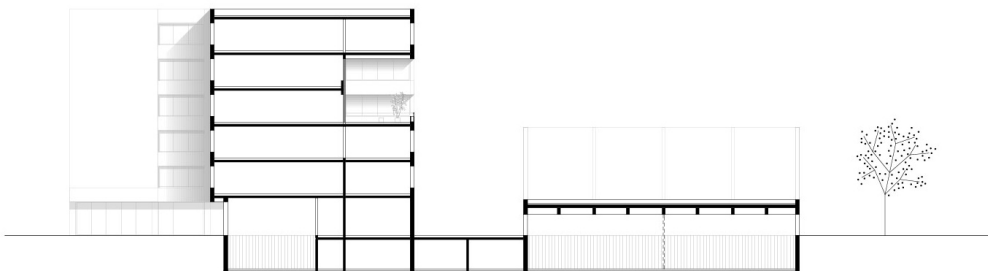

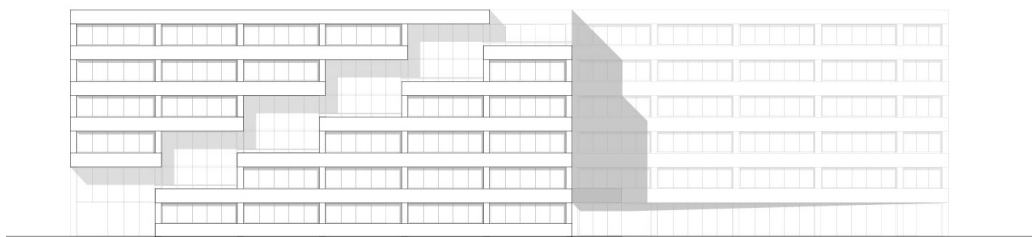

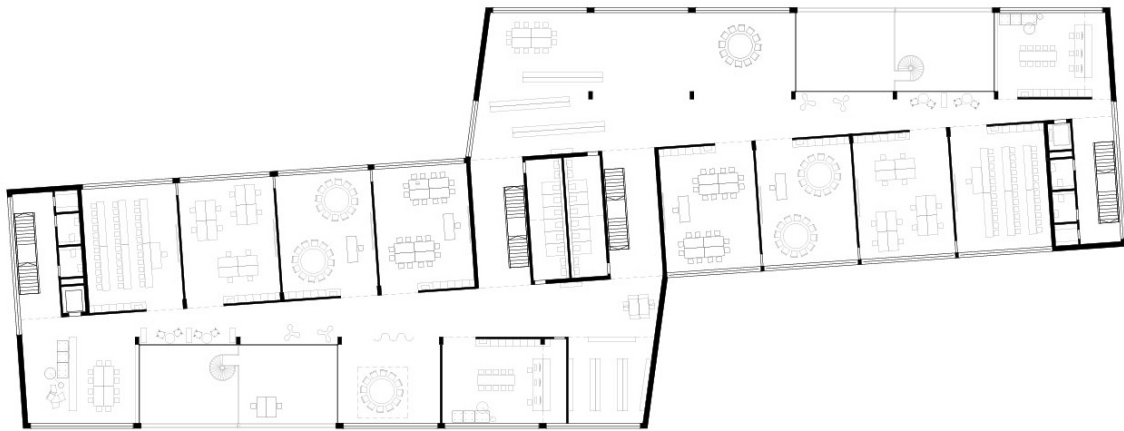

“The vision of a school in the middle of a park. A compact, terraced, s-shaped volume, six stories high with an underground gym leaves plenty of green space around.”

Weber

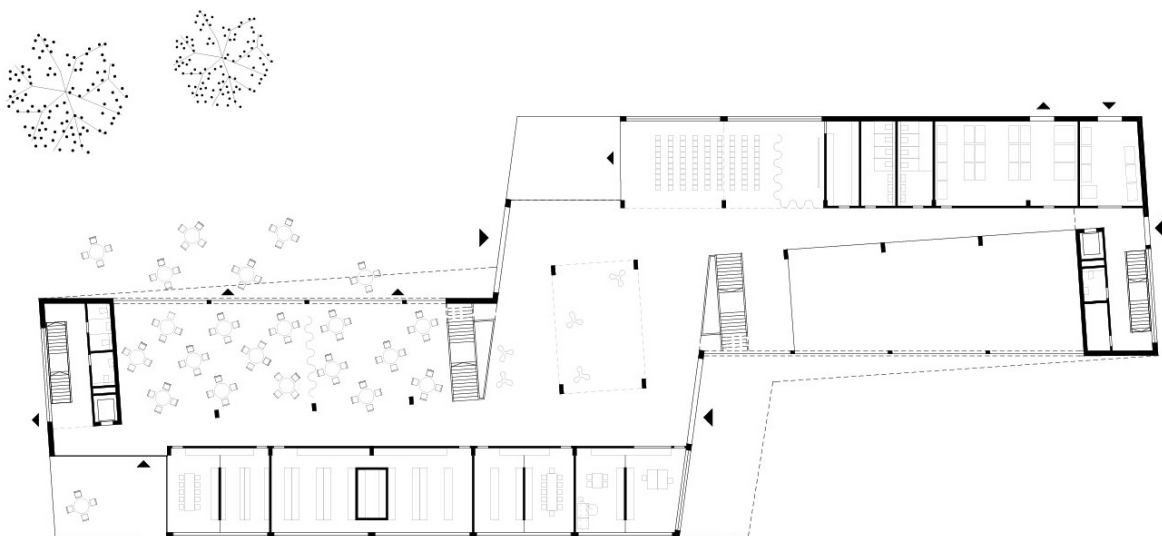

“A green ground floor with direct relation the surrounding park, floating spatial transformations between the multi-purpose room and the dining hall.”

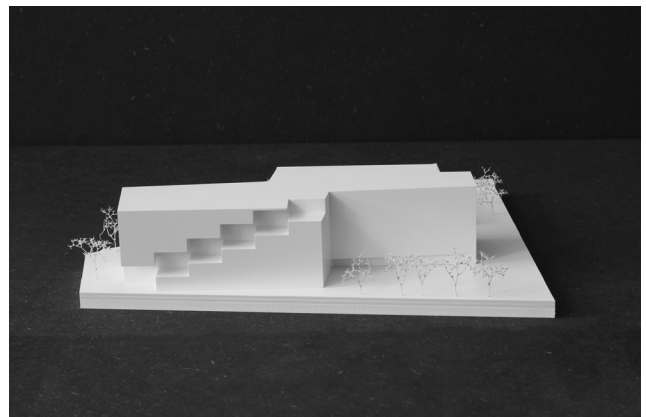

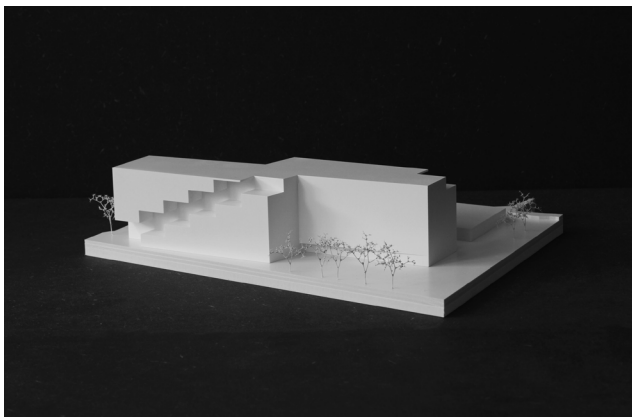

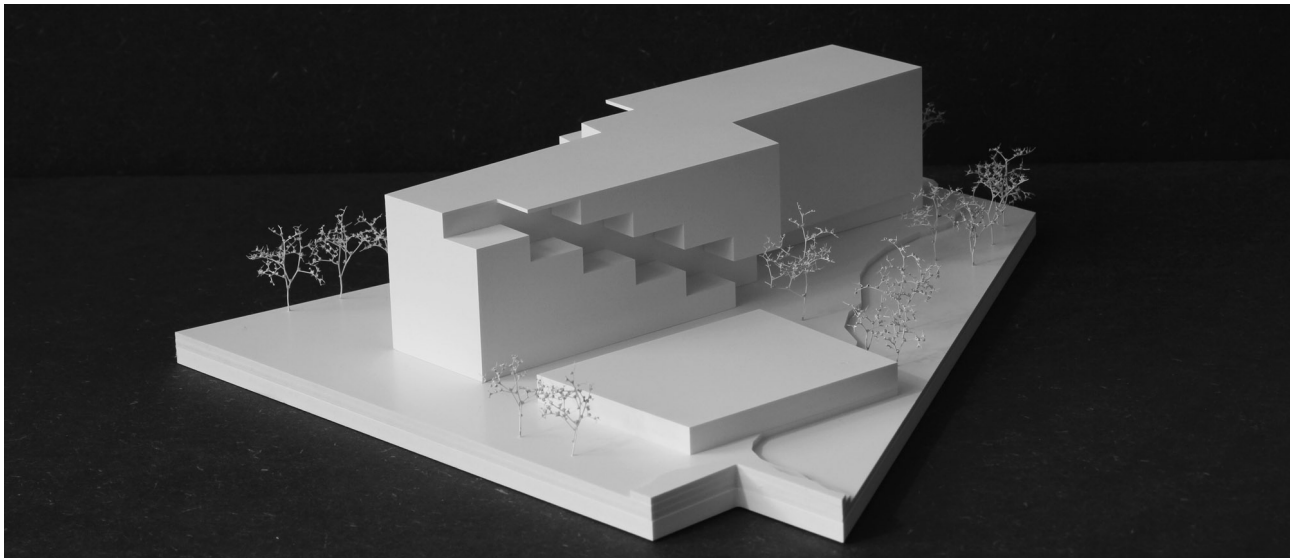

“Clearly organized, centrally accessible, flexible floor plans throughout the classrooms with light-flooded areas and extraordinary visual relations between the stories.”

## PROJECT DETAILS

- Commission Type:  
Open, one-stage general planner competition
- Award:  
Recognition
- Client:  
City of Vienna, MA19
- Location:  
Vienna, AT
- Award:  
2017
